BAAGOR WHIG.

"I be country is fast recovering from the blasting, de moralizing and denotionalizing effects of a bloated credit system and a most out-off holds of proceedings?"

The above text we cut from the Bingor Democcut, and propose to remark briefly upon it I had the unffering under which the commercial, and of consequence the mechanic and manufactuffing clauses have labored at a mideed in a measure removed .. and since Martin Von Boren and his party have been defeated in their attempts to saddle upon the country, in the form of law, the pub-treasury system, a greater conddence has grown up among ctp talists credit is as -scaning is h. libful emerater, and business starts. This was to be expected. The vilest system the country may adopt the bitterest Tatten ine for ofoscerores may entermine and the direst revenge they may attempt to exercise a goinst the business and business men of the country, can only injure them for a time. There is that power, and stanina, and perseverance, and elasticity in American enterprize, that nev et yields, only to the aternest necessity, and then only long enough to recruit itself, or to EN A Deb N. H - Edwards of m which for operate Daniel Webster foresaw this trait of character in the people of the United States and declared

We ask our fraders, as intelligent and honest the causes that led to this evil. And that there bills for his note or draft. Why were the Binks general system enabled them all to keep up their the cheerfu ness of the place balances, and collect their dues. But how hap ! to receive such deposites from the government ' inscriptions, names, &c ' Because Andrew Jackson wished to try one | The cive in front, is now fully exposed to | From the Annual Report of the Board of Di was not the Andrew Jackson? Where in this chain of circumutances can be found any other adequate party, told the country of the effects which would be produced, as clearly as though they the pages of history

The loco-foco party are still anxiously awaiting an opportunity to experiment upon the people in another, and of the two, a thousand times more dangerous method. Instead of trusting the money to the keeping of safe Banks, it is proposed to set up Treasury houses over the land, like dark spots upon the Sun, and have a long pockets, and clear out for England, Texas er the Not only-these who last for honor and influence, and whose ambition to wield power is awakened, but the renal, the iniserly, ense, and the baser passions are ealled into exercise, and unscrupulously exerted to rivet upon

Thanks to a good Providence, which, although the suffered the people to pass through sufferings, as a punishment for unworthy man worship, has not left them to be overwhelmed by the untiring exertions and deep laid plets of their rulers. Once and again, and again, has the attempt been made, but the Bepresentatives of the proph stood firm amid the threatening storm, and portentons darkiness that surrounded them The storm-cloud receded for a time, and the people railied to the defence of the ancient tree of liberty, and swore upon their alters, and declared at the polls, to defend it to the fast inchagainst the withering blight of a corrupt and Strapting Mab Treasury

the prople, a dangerous and rumous project

In noticing the condition of this Institution we are surprised that any man should suffer his buildings to r main without manrance. The cheapness and facility with which insurance a gainst fire can be effected on almost any species of property, detract very much from the claims upon public sympsthy and charity, which sut those who neglect so important a matter. It should be an invariable role with every one, to be insured the rich, re well he the poor. The rich are bound to set the example and lend their aid and personage to institutions of so worthy diressed out more like for a bridgi than a lunge

The plan of "Mutual Insurance is unquestionably one of the greatest utility, and we perceive it fast coming into general favor through out the Union It is now applied to Marine, as well as fire risks. years that the office has been to \$ aperation,

By which it appears the Office has been thus far extremely fortunate. The amount insured and the deposit Fund, has nearly doubled during the past year, indicating a great degree at public invorund that the ultimate prosperity of the Company is sure

The feet that this mode of lasurance (mutual) costs less than one third of that of any ether, and the advantageous location of this Office, in the midst of a rapidly increasing agricultural community, must ensure the future usefulness of this excellent Institution.
